**БЪЛГАРСКИЯТ ОПИТ**

Определено има търсене на биткойни напоследък. Поради тази причина не успяваме да задоволим цялото търсене и в момента не продаваме, защото нямаме наличност.

Съвсем скоро ще има отново и пак ще се предлагат. Интересното е, че хората купуват, но не продават. Въпреки че това затруднява пълноценната работа на сайта, според мен е добър знак, защото означава, че в момента хората имат доверие в биткойните.

Ако трябва нещо да се нарече „парите на бъдещето“, то това е биткойн.

### SHEEP MARKETPLACE SCAM: OVER 40,000,000\$ IN THE BIGGEST DARKNET SCAM EVER!

POSTED BY: DEEPPDOTWEB NOVEMBER 30, 2013 IN FEATURED, NEWS UPDATES 2 COMMENTS

**TL;DR:** Sheep Marketplace disabled withdrawals, but allowed deposits for the past 10 days or so. They have now disabled the forums after deleting posts related to the inability to withdraw and all this just to start moving the bitcoins from the marketplace to another location ([BlockChain Link](#) - Explanation below)

- \* **1/12/13 Update:** Sheep Marketplace is now officially Down - [See the detail here](#)
- \* Update: apparently one vendor did use bug in marketplace and did steal 5500BTC from sheep pocket - so the admin run away (see images below the quote)

## A \$50m Drug And Gun Dark Web Market Just Disappeared And Millions In Bitcoin With It

Thomas Fox-Brewster, FORBES STAFF  
I cover crime, privacy and security in digital and physical forms. FULL BIO

It had become a bigger, badder version of the Silk Road drug bazaar in its short life, but Evolution, founded on 14 January last year, has apparently been closed and one staffer is claiming the admins have scammed its huge user base. The site, based on the anonymising Tor network, was home to nearly 20,000 drug sales at the time of its apparent demise, far more than Silk Road or its subsequent iteration Silk Road 2, but also sold weapons, from guns to tasers hidden in fake cigarette packets, and plenty of fraud material. It was also slicker, faster and more professional than other dark web markets, but is ostensibly no more.

According to the site's public relations manager (it also had a doctor and a legal expert), who goes by the name NSWGreat, the admins, who use the monikers Verto and Kimble, have scammed all users and disappeared. Ironically, the site had what was supposed to be a security feature, with funds held in escrow until at least two of the parties involved in a transaction signed off. That meant placing a good deal of trust in the holders of the escrow Verto and Kimble, which wasn't, it appears, merited, as all those funds have now been pilfered, according to NSWGreat.

## Схема за изнудване в България, използваща Биткойн

“Support  charities.

When a legislator runs out against the campaign that says, ‘If you kill Bitcoin, *these kids* starve, *this puppy* goes to a kill shelter, and *this bear* in China doesn’t have a future and goes extinct,’ **that’s a much better message** than, ‘Bob the Speculator won’t make enough money.’

Invest in charities, because that enhances the concept of Bitcoin’s neutrality, and makes it concrete.”

Imagine something in between a Gallery and Community Center, but with themes such as Sports and Youth, with an informational, social and educational (informal education) orientation, acting as an active point of common interests. A place where the spirit, culture, knowledge and the physical culture of the youth are strengthened.

Our current campaign in Bithope is related to the creation of our physical space - a club in which to develop administrative, seminar, project and in general every one of our development activities. At the moment, we cannot even think about our sports base, on which to develop our sports activities, but even a club where we can gather, work and create opportunities for follow-up actions, will be a significant achievement in our development.

To start this dream of ours, 14,000 EUR are needed, which will be enough to initiate the club, its basic equipment and its functioning for a one-year period.

Breast cancer is one of the most common kinds of cancer in women. About 13% of women born today will get breast cancer at some point in their lives.

The good news is that most women can survive breast cancer if it's found and treated early. A mammogram – the screening test for breast cancer – can help find breast cancer early when it's easier to treat.
